DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 06/01/06 has been entered.

Response to Arguments

2. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Independent claim 1 as amended recites a limitation, "wherein the function pointer coordinates to be assigned to the information processing device, which pointer coordinates are an average of certain pointer coordinates inputted into the memory". The limitation is unclear. Applicant has incorporated previously objected dependent claim 3 into independent claim 1. In

doing so, however, applicant has not incorporated all features of claim 3 and instead has incorporated only part of claim 3 rendering the newly amended independent claim 1 indefinite. Furthermore, Applicant has not cancelled the dependent claim 3 from which independent claim 1 is amended. Therefore, proper correction is needed.

Allowable Subject Matter

4. Claims 1-8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
